# intro

We would like to take this opportunity to personally thank you for choosing **earth gear** as your earthmoving equipment and attachment specialists.

As a family-owned business, we pride ourselves on going above and beyond to support our clients. No request is too difficult for us, and we are always ready to assist you in finding the right equipment for your needs.

**earth gear** provides dry hire solutions for the civil, construction, and mining industries throughout Queensland and Northern New South Wales. Our fleet is meticulously maintained, featuring late-model, low-hour machines and attachments that are designed to maximise productivity and minimise downtime. Our experienced and friendly team is dedicated to managing your plant and equipment hire with the utmost care and professionalism.

With branches located in Brisbane and the Sunshine Coast, we service Queensland and Northern New South Wales, ensuring that wherever your project is, we've got you covered. Our success is directly tied to the success of your project, and we will work closely with you to ensure everything runs smoothly.

We look forward to working with you and your business, now and into the future.

Regards  
Lloyd and George  
Joint MD's

# excavators

Our fleet boasts over 100 excavators from 1 tonne to 50 tonne, exclusively comprised of late-model, low-hour, top-brand machines.

## equipment list

model	key features
<b>1.7t excavator</b>	<ul style="list-style-type: none"> <li>Fully hydraulic tilting quick hitch</li> <li><b>Available on trailer</b></li> <li>Retractable tracks. Reduces to under 1m wide</li> </ul>
<b>2.7t excavator</b>	<ul style="list-style-type: none"> <li>Fully hydraulic tilting quick hitch</li> <li><b>Available on trailer</b></li> </ul>
<b>3t - 4t excavator</b>	<ul style="list-style-type: none"> <li>AC and Open canopy options</li> <li>Tilting quick hitch</li> <li>Zero swing</li> </ul>
<b>5.5t excavator</b>	<ul style="list-style-type: none"> <li>AC and Open canopy options</li> <li>Tilting quick hitch</li> <li>Zero swing</li> </ul>
<b>8t excavator</b>	<ul style="list-style-type: none"> <li>AC Cab</li> <li>Zero swing options available</li> <li>Tilting quick hitch</li> </ul>
<b>8t - 10t excavator</b>	<ul style="list-style-type: none"> <li>AC Cab</li> <li>Full rubber tracks or steel with rubber pads</li> <li>Tilting or fixed hitch</li> <li>Zero swing</li> </ul>
<b>13.5t - 15t excavator</b>	<ul style="list-style-type: none"> <li>Tilting or fixed hitch</li> <li>Available as steel tracks or with rubber pads</li> <li>Knuckle boom options</li> <li>Can be supplied GPS ready or with full system</li> <li>Reduced radius</li> </ul>
<b>20t - 24t excavator</b>	<ul style="list-style-type: none"> <li>Tilting or fixed hitch</li> <li>Can be supplied GPS ready or with full system</li> <li>Reduced radius options available. These available with or without blade</li> <li>Reduced radius models can be fitted with rubber track pads</li> </ul>
<b>25t - 30t excavator</b>	<ul style="list-style-type: none"> <li>Tilting or fixed hitch</li> <li>Can be supplied GPS ready or with full system</li> </ul>
<b>36t - 40t excavator</b>	<ul style="list-style-type: none"> <li>Tilting or fixed hitch</li> <li>Can be supplied GPS ready or with full system</li> <li>Reduced radius with blade options available</li> </ul>
<b>45t - 50t excavator</b>	<ul style="list-style-type: none"> <li>Tilting or fixed hitch</li> <li>Can be supplied GPS ready or with full system</li> </ul>

# tracked and wheeled loaders

Whether you are moving sand, dirt, or other material, these are equipped with state-of-the-art technology that can handle any task with ease.

## equipment list

model	key features
40hp tracked loader	<ul style="list-style-type: none"> <li>• Available on trailer</li> <li>• Only 1,280mm wide</li> <li>• AC cabins</li> <li>• 4 in 1 bucket</li> </ul>
50hp - 60hp tracked loader	<ul style="list-style-type: none"> <li>• AC cabins</li> <li>• 4 in 1 bucket</li> <li>• Optional 6 in 1 tilt buckets</li> </ul>
75hp - 80hp tracked loader	<ul style="list-style-type: none"> <li>• AC cabins</li> <li>• 4 in 1 bucket</li> <li>• Optional 6 in 1 tilt buckets</li> </ul>
100hp tracked loader	<ul style="list-style-type: none"> <li>• AC cabins</li> <li>• 4 in 1 bucket</li> <li>• Optional 6 in 1 tilt buckets</li> </ul>
14t wheeled loader	<ul style="list-style-type: none"> <li>• Loader style or tool carrier options</li> <li>• Mine spec machines available</li> </ul>
15t - 18t wheeled loader	<ul style="list-style-type: none"> <li>• Loader style or tool carrier options</li> <li>• Mine spec machines available</li> </ul>
34t - 40t wheeled loader	<ul style="list-style-type: none"> <li>• Loader style or tool carrier options</li> <li>• Mine spec machines available</li> </ul>

# rollers

Our range of rollers, from 2.5 tonne to 13 tonne, are engineered for superior compaction performance, ensuring optimal results on every surface.

## equipment list

model	key features
remote control trench roller	<ul style="list-style-type: none"> <li>• Wireless remote control</li> <li>• Articulated steering</li> <li>• Centre lift point</li> </ul>
2t - 3t double drum smooth roller	<ul style="list-style-type: none"> <li>• ROPS bar</li> <li>• Available with optional sun canopy</li> </ul>
8t single drum roller	<ul style="list-style-type: none"> <li>• Padfoot and smooth drum options</li> <li>• AC cabins</li> </ul>
12t single drum roller	<ul style="list-style-type: none"> <li>• Padfoot and smooth drum options</li> <li>• AC cabins</li> </ul>

# site dumpers

Our site dumpers are built to master even the most demanding terrain. The series includes the 912G, 912GS and 912HM models and range from 6 - 10 tonne.

## equipment list

model	key features
<b>6t site dumper</b>	<ul style="list-style-type: none"> <li>• 6 tonne load capacity</li> <li>• 74hp Diesel Deutz Engine</li> <li>• 60 Litre Diesel Tank</li> <li>• 180 Degree Swivel Skip</li> </ul>
<b>10t site dumper</b>	<ul style="list-style-type: none"> <li>• 912GS and 912HM available</li> <li>• 10 tonne load capacity</li> <li>• 147hp diesel cummins engine</li> <li>• 140 litre diesel tank</li> <li>• 180 degree swivel skip</li> <li>• 912GS - Double the capacity of all other site dumpers</li> <li>• 912HM - Low Kerb Weight &amp; Wide Tyres for Low ground Pressure</li> </ul>

# water carts

From 1200L trailers to 13000L trucks, we have you covered with dust suppression and compaction onsite.

## equipment list

model	key features
<b>1200L water trailer</b>	<ul style="list-style-type: none"> <li>• Includes 2 x deflector sprays and hose reel</li> <li>• Optional dribble bar</li> <li>• Diesel or petrol engine options</li> <li>• Mechanical breaks</li> </ul>
<b>4000L slip-in water tank</b>	<ul style="list-style-type: none"> <li>• Includes 2 x deflector sprays and hose reel</li> <li>• Remote control engine start and valve operation</li> <li>• Diesel powered engine</li> </ul>
<b>8000L water truck</b>	<ul style="list-style-type: none"> <li>• Automatic transmission</li> <li>• Sprayer options include: centre rear, rear LH &amp; RH batter sprayers, front LH &amp; RH sprayers</li> <li>• Variable pressure in cab</li> <li>• Water cannon</li> <li>• Ability to suck fill</li> <li>• MR License</li> </ul>

# peak attachments

PEAK Attachments by earth gear offers top-quality excavator attachments and essential hire equipment for seamless civil and earthmoving projects.

## rockbreaker

Hydraulic attachment for breaking concrete and rock, perfect for demolition and quarrying.

### KEY FEATURES

- High-impact force
- Durable for heavy-duty use
- Precision control minimises collateral damage

## hydraulic rock saw

Powerful cutting tool for rock and concrete, used in roadworks and trenching.

### KEY FEATURES

- 5t - 20t size range
- Provides controlled, precise cuts

## hydraulic twin header

Attachment for milling and trenching rock and concrete.

### KEY FEATURES

- Designed for 8t - 20t excavators
- Dual rotating drums for precise cutting

## hydraulic pulveriser

Heavy-duty attachment for crushing concrete, ideal for demolition.

### KEY FEATURES

- Compatible with excavators
- Interchangeable blades for various materials

## steel shears

Heavy-duty tool for cutting metal and steel, ideal for recycling and demolition.

### KEY FEATURES

- Suited for excavators
- High cutting force with precision control
- Precise cutting

## tree shears

Hydraulic attachment for cutting trees, ideal for land clearing.

### KEY FEATURES

- Suitable for 20-35t excavators
- Durable for heavy forestry work

## compaction wheel

Attachment for compacting soil, essential for construction projects.

### KEY FEATURES

- Compatible with excavators
- Padfoot drum design for thorough compaction

## hydraulic compaction plate

Powerful compaction tool for trenches and foundation prep in earthmoving.

### KEY FEATURES

- Suitable for excavators, vibrating function boosts compaction

## hydraulic rock grab

Attachment for gripping and handling heavy materials, ideal for demolition, rock placement, and sorting tasks in construction.

### KEY FEATURES

- Precise control for improved efficiency
- Compatible with a range of excavators

## rotating hydraulic grab

A 360-degree rotation grab for handling materials like rocks and debris in construction.

### KEY FEATURES

- Excavator compatible
- High grip with precise angle control

## sieve bucket

Attachment for sorting soil and debris, improving on-site efficiency.

### KEY FEATURES

- Designed for excavators
- Ideal for sifting mixed materials

## multi grab

The multi grab is perfect for demolition, material sorting, rock placement, and landscaping tasks.

### KEY FEATURES

- Precise operation for enhanced productivity
- Compatible with various excavator models

## auger drives

Hydraulic drilling tool for soil and rock, used in construction and landscaping.

### KEY FEATURES

- Compatible with 0.8-35t excavators and skid steers
- Available in various sizes and extensions

## tracked loader level bar

Attachment for leveling and grading, ideal for site preparation.

### KEY FEATURES

- Compatible with tracked loaders
- Great for spreading soil and gravel

## tracked loader forks

Attachment for lifting and transporting materials, suitable for heavy-duty use.

### KEY FEATURES

- Compatible with tracked loaders
- Adjustable fork width

## skidsteer loader broom

Sweeping attachment for site cleanliness, suitable for construction and roadways.

### KEY FEATURES

- Heavy-duty bristles
- Wide sweeping width

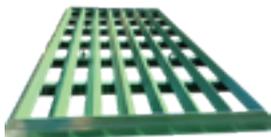

## track mats

Ground protection mats for stable vehicle access on soft terrain and also to protect bitumen and concrete surfaces from steel tracks

### KEY FEATURES

- Strong polyethylene material
- Prevents ground damage

## rumble grid

Good for cleaning vehicle tires at site exits, reducing debris spread.

### KEY FEATURES

- Durable and easy to install
- Vibrates to remove dirt
- Load rated to 16t at 10km/per hr

## road plates

Heavy-duty plates for covering trenches and ensuring safe traffic flow.

### KEY FEATURES

- Steel or composite construction
- Skid-resistant surface

# earth guard

## Security Cameras

Our solar powered security cameras provide a reliable, eco-friendly solution for monitoring construction sites, events, and remote locations.

Powered by solar energy, these cameras offer continuous surveillance without the need for external power sources, making them ideal for off-grid or temporary setups. With high-definition video quality, night vision, and motion detection, they ensure clear and secure monitoring day and night.

Easy to set up and relocate, these cameras are available for dry hire, giving you flexible, cost-effective security without long-term commitments. Perfect for enhancing site safety and protecting valuable assets.

### KEY FEATURES

- High-definition video quality
- Night vision capability for low-light conditions
- Motion detection sensors

earth gear
